What Teachers and Students Have Said about the HELP Loan Program

- “You have done an outstanding job at providing resources that I would not have been able to get.” Teacher
- “Received excellent, friendly service. Was able to catch up on what I missed in class. You have an excellent program. I’d like to see it become so popular that no more animals die for research.” Student
- “Great help!” Teacher
- “Providing a great educational service. Thanks!!” Teacher
- “HELP is an excellent program. I can only hope that dissection will go the way of the dinosaur. For me, it was a worthless exercise in memorization.” Student
- “The service was great and the materials amazing!” Student
- “Service and support is great! Thanks so much for all your help and support. You’ve made my first year of biology great.” Teacher

Digital Frog 2

- “This is an excellent program. If this company makes more software that is relevant to Anatomy and Physiology or Zoology, I would like to see it added to your collection.” Teacher

Dissectionworks

- “Because we borrowed this-anatomy teachers have decided to purchase it and use for all students in lieu of pig dissection.” Teacher
- “Ten of my daughter’s classmates joined her in this alternative to the lab.” Parent
- “We really enjoyed using the software. Some of the students dissection the worm 3 times.” Teacher
- “CD movies on the Dissectionworks CD were the best.” Student

Great American Bullfrog Model

- “This model was great! It was large enough to see from the back of the class and it was easy to identify the different parts. I highly recommend this.” Student

Sniffy: The Virtual Rat

- “It was wonderful to have the opportunity to use this software in the classroom.” Teacher
